

LET'S STOP THE VIOLENCE!

Please, let's stop the violence. I know those are only words, but words with a meaning. We have all seen and heard enough. The time is now to bring violence to an end. Aren't you tired of seeing our loved ones murdered? Aren't you tired of seeing our senior citizens being robbed and beaten, fires deliberately set, destroying homes and businesses and so much more? The generation after this one will not be given the opportunity to grow up in a positive environment because of so much negativism. Children at early ages today are bringing guns to school, stealing and telling their parents what they will and will not do.

Through the eyes of a child they should be seeing beauty. Instead they see crime in many forms. The worst part, many of them are perpetrators. I'm pleading today, asking our young black men and women to stop playing the violent destructive parts in movies because it's degrading. Though these parts may be satisfactory money wise, but they should not be a priority or a feeling of that part fitting your personality. Too much violence, sex and killings are shown. That is not a good image. Of course some people would do anything for money, knowing money is the root of evil. Sure, we need money to pay bills and in many other ways, but acquiring it in the wrong way to satisfy a need is sinful.

I pray for better days because we are living in the last days. The bible states, "Critical times hard to deal with, we will face." Aren't we facing those times now? Parents against children, children against parents, wars, earthquakes, unusual weather, violence all over the world, people dying young and old. These are signs of the end. Those in positions of authority don't know what to do. Very little they can do because what's happening today is the worst outburst of crimes ever, and it's beyond man's comprehension. Let's resolve this major problem by putting it in God's hands, and taking it out of man's hands because God can do what no one can. We are all human beings regardless of skin color or race.

Take a look at the big picture. Human beings are committing these acts of violence, so it's going to take these human beings to end violence on the street, at the homes, in the parks, in the church and everywhere else. Violence is global. We don't have all the answers to resolve all problems, but we all have common sense.

Let's use our common sense and end the violence today.
